

ELEKTRO EXPORT

YOUR TRUSTED PARTNER
ELECTRICAL & MECHANICAL SOLUTIONS

We offer service
at international standards
with our competitive prices and
durable and useful products.

ELEKTRO EXPORT

ABOUT US

With over a decade of experience in the electrical industry, Elektro Export has become a trusted global supplier of **high-quality**, **competitively priced** products and turnkey engineering solutions. Headquartered in Denizli, Turkey, delivering exceptional value through reliability, technical expertise, and customer-focused service.

Our core strength lies in **Medium Voltage (MV) systems**, where we provide a wide range of equipment including **switchgears, transformers and panel systems.** In addition to product supply, we specialize in turnkey project delivery, offering **end-to-end engineering, procurement and commissioning services** tailored to international standards.

International Quality

Our professionalism and vast experience has enabled us to create a niche for ourselves and make our presence felt worldwide.

Individual Approach

Each client and situation is treated in a unique and distinct way.

Competitive Price

We guarantee you economic costs and high quality on all our electrical control system solutions.

Complex Solutions

Complex problem-solving often involves assessing and evaluating potential solutions for problems that have several variables and intricacies.

1. Medium Voltage Switchgears

- Metal Enclosed Switchgears
- Metal Clad Switchgears
- SF6 Free Switchgears
- Current & Voltage Transformers (MV CT/VT)
- Ring Main Units (RMU)
- Switchgear Components

2. Transformers

- Hermetically Sealed Transformers
- Distribution Transformers with Conservator (Expansion Tank)
- Dry Type Transformers
- Power Transformers

3. LV Distribution Boards / Panels

- Miniature Circuit Breakers (MCB)
- Molded Case Circuit Breakers (MCCB)
- Residual Current Devices (RCD)
- Contactors, Relays, Timers
- Surge Protection Devices (SPD)

4. Control & Automation Systems

- Programmable Logic Controllers (PLC)
- Human Machine Interfaces (HMI)
- Motor Protection Relays
- SCADA Systems

5. Electrical Enclosures and Kiosks

- Outdoor Metal Kiosks
- Compact Substations (CSS)
- Sheet Metal & Polycarbonate Enclosures

6. Cables and Accessories

- Power Cables (LV / MV / HV)
- Control Cables
- Cable Glands and Lugs
- Heat Shrink and Cold Shrink Accessories

7. Lighting & Fixtures

- Industrial Lighting Fixtures
- Explosion-Proof Lighting
- LED Street Lights
- Emergency Lighting Units

8. Renewable Energy

- Solar Panels
- Solar Inverters
- Batteries
- Solar Installation Equipments

9. Diesel Generators

ELEKTRO EXPORT

MV SWITCHGEAR

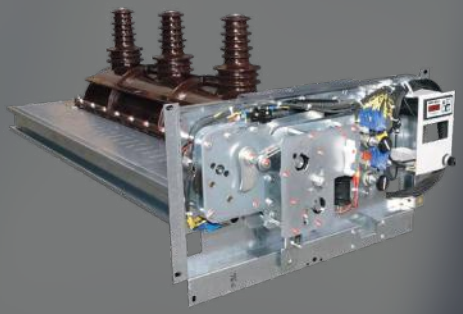

Metal Enclosed Switchgears

We supply metal enclosed switchgears designed for safe and reliable distribution of medium voltage electricity. These compact systems are ideal for industrial and utility applications.

Metal Clad Switchgears

Our metal clad switchgears offer enhanced safety with compartmentalized construction, ensuring arc protection and easy maintenance for critical medium voltage operations.

Switchgear Components

We supply metal enclosed switchgears designed for safe and reliable distribution of medium voltage electricity. These compact systems are ideal for industrial and utility applications.

KIOSK

We provide prefabricated MV/LV KIOSK substations equipped with transformer and switchgear solutions. These turnkey units are ideal for quick deployment and outdoor use.

SF6 Free Switchgears

As part of our commitment to sustainability, we offer SF6-free switchgears using environmentally friendly insulation technologies, compliant with the latest international regulations.

ELEKTRO EXPORT

TRANSFORMERS

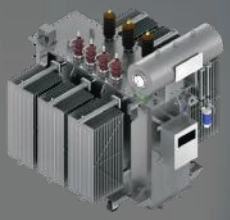

Distribution Transformers

We offer a comprehensive range of distribution transformers designed for efficient and safe power distribution in urban, rural, and industrial networks.

Oil-Immersed Distribution Transformer

Hermetic Oil Immersed Type Distribution Transformers
These sealed-type transformers are maintenance-free and ideal for humid or polluted environments, preventing oil oxidation and moisture ingress.

Distribution Transformers with Expansion Tank
Designed for ease of inspection and maintenance, these transformers feature oil expansion tanks and robust thermal performance.

Dry Type Transformer

We supply dry type transformers with high fire safety and low maintenance, ideal for indoor applications such as commercial buildings and public facilities.

Generators

Engineered for uninterrupted performance, our industrial generators deliver dependable standby and prime power solutions. Designed to ensure maximum efficiency, durability, and safety across various power applications.
